Our liquidity and capital position remains strong, stable and sound

We strive to maintain strong liquidity and capital positions and our risk appetite for liquidity is low.

Pro forma liquidity coverage is strong and stable

- Our liquidity position is immediately strengthened by the transaction resulting from the infusion of ~\$35 B in cash, and the FDIC contingent liquidity facility which provides additional contingent funding.
- Combined company has total liquidity that covers uninsured deposits by over 175%.

Conservative & stable investment portfolio management

- We conservatively manage our investment portfolio, focusing on short duration High Quality Liquid Securities that are either directly, or indirectly, guaranteed by the U.S. government.

Proactively improved on balance sheet liquidity

- In an abundance of caution, increased our borrowings from the FHLB in March to approximately \$9 B which increased our pre-acquisition cash position from \$4 B to \$10 B.
- Moved more than \$4 B in unencumbered HTM securities to the FHLB to provide an opportunity for increased borrowing capacity.
- Our legacy deposit base acts as a source of strength and stability and we expect to have the continued ability to stimulate core deposit growth through reasonable and effective pricing strategies.
- Since December 31, 2022, our deposits have grown by more than \$1.3 B.

Pro forma capital within target ranges

- First Citizens has a history of being well-capitalized.
